We would call the attention of all who desire to obtain a perfectly pure liquor to the advertisement of Bininger & Co. (established 1778, No. 15 Beaver street, New York), published in another column Their 'Bininger's Old London Dock Gin" is especially designed for the use of the Medical Profession and the Family, and the high reputation of that well known firm is staked upon the excellence of this

standard article. Bininger's "Old London Dock Gin" ha long been in favor with the profession as a remedial agent. It has this peculiar advantage over other diffusible stimuli, that it exhibarates without creating any thirst of an unhealthy character, it soothes while of your board, I must, under existing cir it also excites, and is a powerful pervine as well as an active tonic; and it possess all the qualities that can be desired for the highest and noblest use of all wines or liquors. Its ingredients are the distilled juices of carefulty selected grains, made delicately pungent and flavorous with the aromatic tincture of the Juniper Berry.

We direct special attention to the medi cal card of W. C. Cook in our columns this morning, whom we recommend to our citizens, as a gentleman of eminence and akill in his profession, settling among us as a permanent citizen.

HOWARD FEMALE COLLEGE, GAL-

To the Editors of the Union and Amer GALLATIN, Tenn., June 22, 1869. The examination exercises of this popular institution commenced this morning under the supervision of its indefatigable President, Prof. H. B. Todd. As we ntered the college grounds we were struck with the great change that had of what patience, perseverance and an untiring energy can accomplish. A few years ago the college buildings and nds were under executions for heavy

lebts, and would have been sacrificed but for the timely appearance of its pres-ent President, Prof. Todd, who under-took the arduous task of relieving it from its embarrassed condition, and putting it in a condition that would render it useand an ornament to the town. For this one purpose has he labored faithfully, and untiringly for the last three years, and we could but feel gratified to day, when it was given him to enjoy the reward for his exertions in this behalf in beholding arrayed upon his college platform one hundred and thirty of beautiful, intelligent girls, and in the conciousness of the fact that Howard College did not owe a

menced with the examination of the pu-pils of the primary department, who dis-played an unusual proficiency in their studies, and reflected great credit upon their teacher, Miss Wynne, a daughter of ne of Sumner county's best citizen Col. A. R. Wynne. The pupils of the preparatory depart ment were next examined, and we but

express the sentiment of all present, when we say that the proficiency of the students in this department was truly astonishing, and surpassed anything we have ever heard upon a public examination. This department is taught by Miss Lee Glover, a daughter of Maj. James Glover, who is well known in your city These young lady teachers, Misses Wynne and Glover, are both natives of Cennessee; so you see, Mr. Editor, we ind female teachers in Sumner, without sending to Massachusetts. We defy the whole North to produce two such teachers, and must congratulate Prof. Todd and the community in having secured

The exercises of the morning wer nterspersed with music of a most excelent character by the class under the instruction of Prof. Sporer, who is horoughly posted in the science of swee

their services.

But Messrs, Editors, I cannot close this brief sketch without referring to the domestic management of the institution. The boarding department has been enlarged, and works like clock-work, and is in most perfect harmony under the supervision and management of Prof. Todd's nestimable wife. We took dinner in the college to-day, and are prepared to testify to her thorough proficiency as a housekeeper. If you don't feel disposed to take our word for it, just come up and see for yourself, and I venture the assertion that you never met with a morhospitable reception than will be given you by Prof. Todd and his lady. In addition to these good qualities

Mrs. Todd is regarded as one of the most accomplished, intelligent, christian ladies in the community, and one that will be an ornament to the position she occupies, as wife of the president of one ollegiate department will commence this

The session will close with composi ions, confering degrees, etc., on Thurs. day night. A VISITOR. SECOND DAY. GALLATIN, June 23 .- The

ion of the pupils of Howard Female College to day was unusually interesting. The pupils in history, botany and logic, evinced a very thorough knowledge of hose studies. The compositions and addresses by the nembers of the preparatory class under

Miss Glover-would have done credit to the juniors in other institutions. Prof. Todd and his able assistants have riven proof of superior attainments, fine discipline, and tact in instructing their pupils. The musical exhibition will ome off to-night. Their examination has been better attended than any we have had since the war-an evidence that Prof. Todd's efforts are appreciated by the citizens of Sumner.
